

Attentis and SAS have developed an environmental monitoring network which can help to protect endangered species like the Koala | Photo source [SAS](#)

[Innovation](#) > [Sustainability](#) > [The world's largest real-time monitoring network for environmental disasters](#)

THE WORLD'S LARGEST REAL-TIME MONITORING NETWORK FOR ENVIRONMENTAL DISASTERS

SUSTAINABILITY

The network collects and delivers vital data that has improved local agriculture, utilities and forest industries, as well as emergency responses to fires and floods
